

MUHAMMAD NUMAN SALEEM

Associate Software Developer

+92 327 4623300 | numansaleem2003@gmail.com | Lahore, Pakistan

Portfolio: numansaleem.netlify.app | LinkedIn: linkedin.com/in/numan-saleem-4401b9289 | GitHub: github.com/Saleem3500

PROFESSIONAL SUMMARY

Associate Software Developer with a strong foundation in **Full Stack MERN development** and a keen interest in building responsive and efficient web applications. I want to apply theoretical knowledge to real-world projects, learn new technologies, and contribute to innovative solutions. Passionate about writing **clean, maintainable code**, collaborating in teams, and continuously improving technical skills through hands-on experience.

EDUCATION

BS Computer Science Superior University (Gold Campus), Lahore

2022 — 2025

Key Courses: Data Structures, Web Development, Software Engineering, Database Systems, Operating Systems

Intermediate (ICS) Superior College

2020 — 2021

Key Courses: Mathematics, Physics, Computer Science

Matriculation (Computer Science)

2018 — 2019

Key Courses: Computer Fundamentals, Programming Basics, Mathematics

PROFESSIONAL EXPERIENCE

Associate Software Developer — Wizmen Systems, Lahore

July 2025 — Present

- Implemented activity-tracking mechanisms to **analyze 50+ user** behavior patterns
- Designed 10+ dashboards and graphs using Oracle Apex queries, reducing data retrieval time by 30%
- Generated 10+ analytical reports monthly using SQL formulas and Bootstrap Tables to manage and analyze structured data.

Graphic Designer — Rafiperr Global Entertainment

Jan 2025 — Feb 2025

- Designed branding materials, social media creatives, and promotional visuals for entertainment campaigns
- Created high-quality designs using **Adobe Photoshop and Illustrator**
- Collaborated with marketing teams to align visuals with brand identity
- Enhanced audience engagement through visually compelling digital content

Frontend Developer — Auraniums, Lahore

June 2024 — September 2024

- Delivered 4+ responsive and user-friendly client websites with cross-browser compatibility
- Contributed to redesigning the company website to improve usability, increasing page **load speed by 35%**
- Ensured 100% on-time delivery while maintaining quality standards across all projects

MERN Stack Developer Intern — Code Graper's, Lahore

2023

- Developed a full-stack To-Do List application using Node.js and MongoDB supporting 100+ concurrent users
- Worked with 8+ RESTful APIs, backend routing, and database schema design
- Gained hands-on experience with real-world MERN workflows and agile development practices

RESEARCH & PROJECTS

Hospital Management System | HTML, CSS, JavaScript, SQL | 2024

- Designed and developed a web-based Hospital Management System for managing **patients, doctors and billing**
- Implemented SQL-based relational database schema for patient records and medical history
- Built UI using HTML, CSS, and JavaScript for admin and staff dashboards

Portfolio Website | 2024

- Designed and developed a personal portfolio using React with 90+ performance score
- Optimized for performance and ATS-friendly project showcasing

Research on Cybersecurity Attacks | 2024

- Conducted academic research on common cybersecurity attacks including **SQL Injection, CSRF, Phishing, and Ransomware**
- Analyzed real-world case studies and attack vectors affecting enterprise and healthcare systems
- Proposed mitigation strategies such as input validation, encryption, access control, and secure authentication mechanisms

FYP Web Application | 2025

- Developed **Smart Digital Ad-Display System** for displaying targeted ads based on real-time detection.
- Implemented **YOLO (You Only Look Once)** for accurate, real-time human detection.
- Dynamically displayed ads that **matched the detected user's context or situation**.

SKILLS & TOOLS

Frontend: HTML, HTML5, CSS, CSS3, JavaScript, JavaScript ES6+, React.js, Bootstrap, Responsive Design, **Backend:** Node.js, Express.js, SQL, Oracle Apex, RESTful APIs, Database Design, API Integration

Tools: Git, GitHub, VS Code, Antigravity, NPM, Postman, Chrome DevTools, Adobe Illustrator, Adobe Photoshop

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, Software Engineering, Agile Development

Soft Skills: Communication, Team Collaboration, Problem Solving, Time Management, Analytical Thinking

ACHIEVEMENTS

- MERN Stack Developer Certification
- Prompt Engineering Certification
- Coding for Data (SQL)
